Dear Parents/Carers,

During this half term, we would like all the children in Year 3 to produce a Home Learning Project. We believe this gives our children the opportunity to share their learning with family at home, engages them in their learning and allows them to share their knowledge, skills and talents with their peers.

The children are encouraged to choose the project idea they would like to create and how they wish to present it to the rest of the class. This half term's project needs to be completed and returned to school during week commencing Monday 11th February and the children will be given the chance to share the learning with the rest of their class during that week. If your child needs any paper or other resources that school can provide, please encourage them to ask their class teacher.

Project Ideas

- Make a timeline of houses through the ages and present it in an exciting and informative way
- Build a model of a famous or fantastic building from the modern world, or a historical building such as a castle or a Roman villa or fort.
- Create a PowerPoint presentation, showing interesting buildings in the local area, using photographs you've taken yourself
- Design a building of your own. It could be a new school, a house or even a skyscraper. You decide!

Please can you make sure your child brings their project into school during week commencing Monday 11th February so that it can be shared with the rest of their class during that week.

Thank you for your continued support

The Year 3 Team
